<b>APPLICATION</b>	PLAYGROUNDS
<b>ORIGIN</b>	ITALY
<b>STANDARD DIAMETER</b>	16 mm
<b>STANDARD COLORS</b>	
<b>STANDARD CONSTRUCTION</b>	6x7+FC
<b>SINGLE WIRE DIAMETER</b>	0.70 mm
<b>APPROX. ROPE WEIGHT</b>	0.245 kg/m
<b>APPROX. BREAKING LOAD</b>	4000 kg <sup>ⓘ</sup>
<b>PACKING</b>	Roll or wooden reel

### DESCRIPTION

6x7+FC

Steel wire rope made by 6 galvanized steel wire strands covered with UV resistant polypropylene multifilament fiber yarn.

Several colors available.

A minimum order quantity can be required for out-of-standard colors.

**NOTE:** The number of wires and yarns, as well as rope construction, weight and breaking load change according to rope final diameter and application. The standard rope construction can be modified upon customer's request.

Any modification to the standard construction and diameter have to be agreed and may require a minimum order quantity.

*The above-mentioned data shall be considered purely indicative and by way of information only, as they are a result of theoretical calculations. Dynamometer test only can detect the actual breaking load of each rope and the customer must request it when ordering.*
